

## *Red lace brooch with a vintage button*

***What you need:***

- thin red cotton yarn and an appropriate crochet hook (I used size 1.75)
- any type of vintage button (try the local flea market like I did, you might be surprised by the treasure you can find)

***How I did it:***

**1** I crocheted two pieces of lace, each with a different motif

**Motif 1**

**Motif 2**

**2** I sew the two pieces as in the pictures bellow

3 I attached the button and the safety pin

Ok, now, about the technicalities. The two motives that I used.

- For Motif 1 I used a diagram found at the following web address: <http://domihobby.ru/585-novye-uzory-kryuchkom.html>. (If you cannot read diagrams, let me know, I will make a short written pattern for the diagram).
- For motif 2 I used the same pattern that I used for my colorful curtain. This one is published on my blog with a diagram and a written explanation.

*Happy crocheting!*

#### About me:

(Still) a PhD and passionate by all things crafted and especially by crochet. For more projects and tutorials please visit: [www.zarazacrochet.weebly.com](http://www.zarazacrochet.weebly.com).

If you enjoy my work please have a minute and think about the reason why I go through all the trouble of putting together the tutorials and maintaining the blog. I do all this effort with the hope in mind that some of you will also take a look at the 2 associations that I endorse: **The Friends of Cats Association** and **SOS Dogs**. Both associations work to address the problem of the cats and dogs with no home in Oradea (Romania) and surrounding. For more information send me an email, I will be happy to tell you more ☺

#### ***What can I do about the cats and dogs in Romania?***

*If you can't adopt, you can volunteer*

*If you can't volunteer you can sponsor*

*If you can't sponsor you can donate*

*And if you can't do any of the above, you can spread the word :)*

*This pattern is for personal use only. Please do not sell the products for a profit. Selling for charity is allowed.*
